

How to use these token cutouts

These pages contain the text *Green Eggs and Ham* by Dr Seuss. Each **cutout** shows a **next word** paired with the **previous word** that came immediately before it in the original text.

Model vitals		
993 tokens	56 unique tokens	1.8 bits/token entropy
3.5 perplexity	3.45 branching factor	

Anatomy of a cutout

Every distinct word has its own colour. **Previous** words appear inside a coloured box (the word's own colour as the background, with contrasting text); the free-standing **next word** appears in plain coloured text. The same word always wears the same colour, whether you see it inside a box or free-standing. Two unrelated words can occasionally share a colour, so always verify the word itself matches—not just the colour.

Setup

Cut out the tokens along the dotted lines and **spread them out** face-up on the table, with no overlap if possible. This is the “training” step: every (previous, next) combination from the original text is now a physical cutout sitting on your table.

How to play: the matching game

To generate text, repeatedly find a cutout whose **previous word** matches the last word you've written, then **write its next word** onto your page. The word you just wrote becomes part of what you'll match against next—that's the chain.

Worked example

Step 1. Pick any cutout to begin—say this one—and copy its previous word *and* its next word onto your page.

Step 2. Look at the last word you've written (*Sam*) and find a cutout whose previous word matches it. Write its next word.

Step 3. Repeat: find a cutout whose previous word matches the last word you've written, and add its next word.

Keep going—write as much or as little as you like.

Tips

Use colour as a fast filter. Scan by the rightmost previous-word box's colour first, then verify the actual word matches.

Pick from many candidates by eye. The more cutouts share the same previous word, the more often your eye lands on one—that's **weighted sampling** for free, and it's why some words follow others more often in your text.

Put the cutout back after using it—removing it would change the model's distribution next time round.
